Reinventing the Future

It is with great pleasure that I look forward to welcoming delegates from across the globe to London. A city that truly exemplifies innovation, creative thinking, and multicultural spirit. What better setting for the WAC2026 theme: **“Reinventing the Future”**?

Adhesives and sealants are at the heart of a circular and more sustainable global economy. Every day, our industry connects and empowers a vast range of fields—logistics, energy, packaging, construction, automotive, security, healthcare, electronics, and so many more. In these turbulent times, it is essential that we come together, equipped to address global challenges and inspire lasting change within our sector and beyond.

I encourage everyone at WAC2026 to share best practices and showcase model examples, highlighting how our industry naturally excels at reinventing the future. Let us work together to strengthen the bonds that keep our world moving forward.

I wish you all a rewarding and inspiring experience at WAC2026 in London.

Warm regards,

Stuart Jenkinson
FEICA President
